

# FERDINAND'S SAAR QUINCE

RIESLING WINE INFUSED

Based on Ferdinand's Saar Dry Gin, our Riesling-infused Saar Quince owes its name to the Royal Prussian District Forester Ferdinand Geltz, the historical figure who also co-founded the VDP Mosel-Saar-Ruwer growers' group. Carefully hand-picked Riesling grapes from the steep shale slopes of the Saarburger Rausch and over 30 finely balanced botanicals taken from the vineyards and our own cultivation are macerated with highly aromatic quince fruits from our trees behind the distillery.

This golden-yellow "fruit of Aphrodite", as it is also known, is one of the oldest fruits in our culture and forms the basis for our regional homage to traditional sloe gin.

*The golden fruit  
from the Saar*
