# HISTORY

## **BARON FRANCOIS, SINCE 1982**

Baron Francois Ltd was founded in 1982 by Adrien Baron, a native of southwest France, during a time when domestic wines and spirits dominated the New York market.

Undeterred, Adrien sought to bring the fine wines of his homeland to the big apple dining and retail scene. His family-owned company rapidly became well-known as a key supplier of fine French wines to wine shops, hotels, and restaurants across the city, eventually selling to surrounding states as well.

Frederic Goossens, Managing Partner & Adrien Baron, Founder

## **THE LESGOURGUES FAMILY**

Since 2000, Baron Francois has been operated by the Lesgourgues family, who have a long history of winemaking themselves. They currently manage production at several of their own French estates, including the acclaimed Château de Laubade Bas-Armagnac and the rising star of Graves, Château Haut Selve. Frederic Goossens joined the company as Managing Director in December 2011 and became partner in July 2014.

# SUSTAINABILITY

We believe in sustainability, both in our relationships and in our products. Baron Francois partners with some of the oldest multigenerational wineries and distilleries in France and around the globe. As such, we value the techniques they have been practicing in harmony with nature for centuries. Our people-driven approach emphasizes the terroirs of our producers and the relationship between the growing region and the growers, and we partner with only a select number of vineyards in each appellation to ensure close relationships. Working directly with producers gives us an intimate understanding of their processes, and our 40 years of expertise selling to the East Coast market ensures lasting relationships from vineyard to table.

# TERROIR

Baron Francois' portfolio emphasizes the terroir of wine regions and the techniques of artisan families to deliver our clients well-rounded and insightful options. With a detailed focus on our producers' histories and environments, we seek to tell the full story of each wine, from growing to bottling. The extensive portfolio of Baron Francois is dedicated to family-owned estates with whom the company maintains faithful relations vintage after vintage. Baron Francois' tasting committee is very strict and uses a meticulous process to ensure only the best value for our customers and final consumers. Our objective is to select elegant and well-balanced wines and spirits from producers who truly embody their terroirs.

## CHAMPAGNE HENRI GIRAUD

www.champagne-giraud.com

The origins of **Champagne Henri Giraud** go back to 1625. Contemporary of Henri IV and his descendants, the Hémart family settled permanently in Aÿ at the beginning of the 17th century. Claude Giraud, 12th generation of the Giraud-Hémart family, today presides over the destiny of this Champagne House. Each of their cuvées explores new aestheticism and gives a powerful message which goes well beyond the simple repetition of the winegrower's ancestral gestures moving aside to the advantage of Mother Nature. Without any stainless steel and with the minimum of interventions and sulphur, our creative and natural wine-making process leads their wines as closely as possible to the truth of the terroir and of the grape varieties. The spirit of their estate can not be defined, as it is driven by each of their cuvées.

"The Henri Giraud Experience" is the commitment to return to the excellence of the great wines of Champagne". They were named the 17<sup>th</sup> most prestigious house in Champagne!

**The whole vineyard is worked in sustainable viticulture and under certification of high environmental value (HVE).**

## CHAMPAGNE JOSEPH PERRIER

www.josephperrier.com

Founded in 1825, **Joseph Perrier** has been owned and run by the same family since 1888, Benjamin Fourmon, the current Managing Director, represents the 6th generation, who is still searching for excellence. Less than 100 years after its creation, the Joseph Perrier champagnes were being drunk at the Royal Court in England. Today Joseph Perrier is the only house still making champagne in Châlons-en-Champagne.

The house owns three kilometres of wonderful galleries whose origins date back to the Gallo-Roman period. Several million bottles age here in conditions of total quiet and stability for a minimum of three years. Joseph Perrier also owns beautifully situated vineyards of 21 hectares, located in the heart of champagne on the right bank of the river Marne, around Hautvillers and Cumières, two villages ranked 93% in the « échelle des crus, » mostly planted with Pinot Noir but also including 2 hectares of Chardonnay.

## CHAMPAGNE AUTRÉAU DE CHAMPILLON

www.champagneautreau.com

CHAMPAGNE

The family **Autréau** is located on the heights of Champillon. Establish in 1670 it boasts a fine alliance between tradition and the modern world. Leaning against the forests of the “Montagne de Reims” and dominating the “Vallée de la Marne”, the village of Champillon emerges in the depth of a beautiful panorama of exceptional vineyards. Autréau de Champillon is the champagne trademark which is as singular as the generations of growers who succeed one another and who have continuously enriched their “savoir faire”. Thanks to their passion and mastery,

the grapes, Chardonnay, Pinot Noir and Pinot Meunier produce, after a slow elaboration, champagne wines, which have a very harmonious character. With such an old tradition, the family Autréau expresses in each of its blend their terroir and the sensual expression of the vine’s varieties.

The latin for Hungarian cricket is "Locusta petulans", which roughly means clever cricket. Its favourite food includes the leaves of vine tendrils. But not just any kind of leaves. Research has shown that there are certain varieties of grapes whose leaves the clever cricket will not touch. These are primarily the leaves of the Grüner Veltliner variety.

**Château Moncontour** is one of the oldest of the Loire Valley; it was created around the 4th century. Since the 10<sup>th</sup> century, caves have been excavated in the cliffs to vinify and preserve its precious wine. Though the estate originated in the 13<sup>th</sup> century, the actual castle dates back to the end of the 15<sup>th</sup> century. Even Balzac used to own it, and in his novel "La femme de trente ans," he immortalized Moncontour and its wines. The total surface of the vineyards is composed of 346 acres spread out over several types of soils of Vouvray and Touraine appellations near Tours.
