

Elephant Gin is a premium handcrafted London Dry Gin of 45% alcoholic volume, made with carefully selected ingredients. Handcrafted in Germany with high quality production standards, the gin is copper distilled in small batches using 14 botanicals, including rare African that combine with fresh apples and pure spring water from Germany to create the gin's distinctive flavor profile.

The cork is naturally grown and sourced from Portugal.

Hand sealed string around the neck underlines the artisan feel of the product.

The back-label represents a map of South Africa as discovered by 19th century explorers.

All labels are hand-written by a calligrapher. Look up the story of your elephant on our website.

Tasting notes:

- distinct nose of subtle juniper aroma with an undertone of mountain pine and other herbaceous notes
- taste is complex but strikingly smooth, encompassing floral, fruity and spicy flavours
- elegant, well balanced and light - ideal for G&T

Elephant Gin grew by + 55 % from 2019 - 2021
