

Cave de Sancerre

— Depuis 1963 —

In 1963, several Sancerre winegrowers got together to create a common winemaking and trading tool. The Cave des Vins de Sancerre, the only cooperative to date in the Sancerre appellation, was born. Our original values have remained unchanged: solidarity between winegrowers, sharing know-how, and a commitment to quality. Today, our 76 member winegrowers spread over 12 communes perpetuate and develop the work of the cooperative's founders, in line with the ethics of the social economy.

A controlled process

From harvesting to collection, blending and marketing, the winegrowers, backed by the cellar teams, control the entire process, guaranteeing you quality-certified Sancerre wines.
