The particular soil of Civranetta estate, near the Lagoon of Venice, conveys a compound aromas balance to every single grape. The proximity to the sea and its prevailing winds, give the grapes a distinct flavor that increases their aromas. Prosecco Col Fondo is characterized by the deposit of the yeasts on the bottom: it is made according to the traditional method, which has been used since 1700s', of second fermentation in the bottle without disgorgement. What is obtained is a dry, fruity and refreshing wine. The prolonged contact with the natural yeast confers on it a sapid and decisive finish and a well-balanced flavor, with bread crust aromas. Direct and clean, it is possible to consume it limpid after it has separated from the deposit or still slightly turbid.
